

## Fixed panel line

Sliding fly screen, PEGASO is suitable for wide french-doors.

It is supplied in:

- ✓ Do-it-Yourself Kit
- ✓ Bars and assembling accessories;
- ✓ Custom-made

PEGASO is characterized by the removable shutters and the absence of lower guide which makes it easy the cleaning and the transit.

It can be realised with two, three or four sliding shutters.

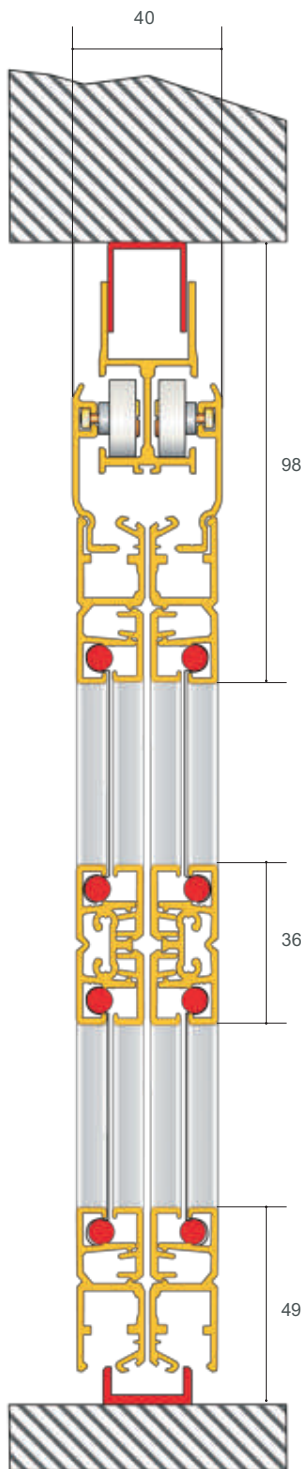

Sliding flyscreen

Dimensions must be communicated Width X Height in mm clearly stating if it is finished measure of the flyscreen or if it is the opening measure

- ✓ Finished measure: flyscreen supplied with the given sizes.
- ✓ Window opening: the flyscreen will be supplied 2mm less than the given size
